

New Navy Unit Decoration Is Announced

Establishment of a new unit decoration to be known as the Navy Unit Commendation has been approved by the President, local Navy officials revealed today.

The new decoration will be awarded by the Secretary of the Navy to any ship, aircraft, detachment or other unit in naval service which has—subsequent to Dec. 8, 1941—distinguished itself by outstanding heroism in action with the enemy, but not sufficiently to justify award of the Presidential Unit Citation.

Navy authorities pointed out that the Navy Unit Commendation will rank below the Presidential Unit Citation, and will compare to similar awards of the Silver Star Medal or Legion of Merit to individuals.

The decoration may also be earned by any unit distinguishing itself by extremely meritorious service not involving combat but in support of military operations.

According to officials, no unit may receive both the Presidential Unit Citation and the Navy Unit Commendation for the same act or service.

Personnel attached to a Navy unit receiving the new decoration and actually present during the occasion for which commended were authorized to wear the ribbon permanently. A bronze star signifies a second award of the decoration.

The Navy Unit Commendation ribbon, measuring the standard Navy size of one- and three-eighths inches by one-half inch, consists of colored stripes of royal blue, Spanish yellow, Cardinal red and myrtle green. The material is silk moire.

Use of Cancelled Red and Blue Ration Points Illegal, Board Says

F. W. Daniels, chief clerk, Torrance War Price and Ration Board, has warned consumers and retail merchants that use of all red and blue ration coupons issued prior to Dec. 1, 1944, is now illegal.

The stamps—red stamps A8 through Z8 and A5 through P5 and blue stamps A8 through Z8 and A5 through W5—were invalidated as of 12:01 a.m. Dec. 28, 1944, as the OPA moved to tighten rationing of meats and processed vegetables because of war-induced shortages.

"The order tightened rationing regulations and returned most canned meats to the ration list, most vegetables will be returned to the ration list with the issuance of new point chart effective Jan. 1, 1945," he said.

"Use of such points by either consumer or retailer is now illegal and all such ration coupons in the possession of housewives or others must be immediately destroyed. They are not redeemable for any food purchases and attempted use of the stamps is illegal.

"The enforcement division is now conducting a concerted survey to see that all retail food outlets conform to the new regulations, and that they have at all times the proper point values in their possession."

To partially compensate for the return of most meats to rationing, the OPA has announced that red stamps will now be validated at the rate of 50 points a ration period instead of 30, as previously. Red stamps which are now good for the purchase of meats and fats are Q5 through X5. Blue stamps X5 through Z5 and A2 through G2 are valid for buying processed fruits and vegetables. And sugar stamp No. 34 is still good for five pounds of sugar.

Tightening of war-time food controls will mean stricter budgeting of ration points. Food requirements of the armed forces in 1945 will be greater than was at one time anticipated, which means that there will be less for the home front. The return of several items to rationing was necessary to assure every civilian getting his fair share.

FRESNO VISIT Mr. and Mrs. B. C. Buxton returned Dec. 26 following an enjoyable visit at the new home of their daughter, Mrs. Virginia Scott of Fresno. Mrs. Buxton had enjoyed a two weeks' visit there and was joined by her husband for the holiday.
